

ADG

Comprehensive Financial and Utility Billing Solutions...working for you

Here at ADG, you can rest-assured that our customers come first. We thrive on serving their needs whether they are a large county or a small utility district. In the last 25 years, ADG has retained 98% of its original customers.

"Prior to coming to ADG, I worked for some of the largest players in technology out there and I can tell you, when it comes to providing quality financial software to meet the real needs of local governments and authorities, the big guys have nothing on ADG. The reason: We don't serve 20 different markets globally, we serve you. We are focused on our mission and that is to provide the best service and the best solutions exclusively for governmental financial professionals, period."

-Patrick Fleming, Eastern Sales Director

As a leader in accounting software for government and non-profits, **ADG** has stayed true to one simple objective: to write, maintain, and support the most customer-friendly, state-of-the-art accounting software in today's market place and provide the best customer service possible. This objective has allowed us to expand and improve our company, products, and business since 1983. We handle a variety of accounting functions from general accounting, to payroll and human resources, utility billing, fixed assets tracking, court management, sales tax and licensing, and building permits.

If you are a local city or county government, sheriff's office, or utility district, know that ADG is focused exclusively on helping you. We hope that you will find that working with ADG not only meets your needs, but is truly a refreshing experience.
